What is the Great teachers = Great results initiative?

In 2013 the Queensland Government released the “Great teachers = Great results” paper. The paper focuses on professional excellence in teaching and boosting school autonomy. The Queensland Government proposes to increase funding to the non-government schools sectors by $98 million over the first four years of this initiative commencing in 2015.

What does the Great teachers = Great results initiative mean for Catholic education?

QCEC supports the notion of providing recognition for and promoting ‘Great Teachers’ and seeks to develop strategies that support teachers to improve practice across their schools and enhance teachers’ expertise and effectiveness. The funding will be used to:

1. improve teaching and learning;
2. recognise and promote the development of high performing teachers;
3. promote and support teachers especially in the areas of early years, students with disability, learning difficulties and Aboriginal and Torres Strait Islander education, family and community engagement;
4. promote partnerships across schools, authorities, sectors and providers to enhance and provide professional excellence;
5. develop excellence in mentoring and coaching; and
6. develop aspiring leaders.
